

SMT Cooling Temporary Storage Machine JYC-STCM-300

Our Product Introduction

for more products please visit us on smtmachinepart.com

Basic Information

- Place of Origin: China
- Brand Name: GS
- Model Number: JYC-STCM-300
- Minimum Order Quantity: 1 PCS
- Price: USD+negotiable+pcs
- Packaging Details: 1100*1250*1450mm
- Delivery Time: 1-7 days
- Payment Terms: T/T
- Supply Ability: 1+pcs+per days

Product Specification

- Appearance Size: 1000*1100*1300mm
- Applicable PCB Board Size: 50*50-550*350mm (size Is Not Limited, Other Sizes Can Be Customized According To Customer Requirements)
- Model: JYC-STCM-300
- Cooling Range: 130 Down To 30 /60s
- Highlight: **Cooling Temporary Storage Machine, SMT Temporary Storage Machine**

Product Description

Cooling Temporary Storage Machine

1. Application:

Located on the SMT production line, it cools down and temporarily stores the jigs and PCBA boards that come out of the high temperature after the reflow furnace. It cools down after high temperature to avoid burns to the staff.

2. Working Principle:

Industrial air conditioners and fans circulate cold air to cool down the fixtures and PCBA boards temporarily stored in the equipment.
