

Micro Selective Wave Soldering Furnace

Basic Information

- Place of Origin: China
- Brand Name: GS
- Minimum Order Quantity: 1 set
- Price: USD+negotiable+set
- Packaging Details: 150*150*300mm
- Delivery Time: 1-7 days
- Payment Terms: T/T
- Supply Ability: 1+set+per days

Product Specification

- Product Type: Micro Selective Wave Soldering Furnace
- Tin Furnace Size: 120*120*265mm
- Heating Power: 2000W
- Rated Voltage: 220V
- Tin Furnace Capacity: 3-6KG
- Heating Time: 30 Minutes
- Temperature Range: Normal Temperature -500°C
- Temperature Control Mode: PID Temperature Control
- Driving Mode: Mechanical Pump
- Warranty Period: One Year
- Highlight: Selective Wave Soldering Furnace, Wave Soldering Furnace
