

Panasonic JV131 SMT Placement Machine with 10.0 mm Insert Spacing 2250kg Weight for High-Speed Placement

Our Product Introduction

Basic Information

- Place of Origin: Japan
- Brand Name: Panasonic
- Model Number: JV131
- Minimum Order Quantity: 1 PCS
- Price: USD+negotiable+pcs
- Packaging Details: 3300*2500*1700mm
- Delivery Time: 1-7 days
- Payment Terms: T/T
- Supply Ability: 1+pcs+per days

Product Specification

- Brand: Panasonic
- Model: JV131
- Processing Customization: Yes
- Object Element: Jumper
- Plugin Speed: 0.08sec/ Dot
- Insertion Direction: 4
- Insert Spacing: 2.5 Mm, 5.0 Mm And 7.5 Mm, 10.0 Mm
- Substrate Size: L50mmxW50mm-L508mmxW381mm
- Air Pressure: 0.5MPa,80L/minA.N.R.MPa
- Air Flow Rate: 0.5 MPa, 80 L/minA. N.R.L/min
- Power Requirements: AC200V,3.5kVAV
- Power: AC200V,3.5kVAKW
- Dimensions: W3200mmxD2417mmxH1620mm*3mm
- Weight: 2250kg
- Highlight: **2250kg SMT Placement Machine.**

Product Description

Panasonic JV131 SMT Placement Machine

Advanced surface-mount technology placement machine with 10.0 mm insert spacing and 2250kg capacity for precise component placement in high-volume manufacturing environments.

Key Features & Specifications

- High-Speed Performance:** Capable of placing up to 60,000 components per hour for high-volume production
- Flexible Component Handling:** Accommodates components ranging from small 0201 size to larger components
- Advanced Vision System:** High-precision vision with automatic fiducial recognition and offset correction
- Multiple Placement Heads:** Handles diverse component types simultaneously for optimized productivity
- Exceptional Accuracy:** $\pm 0.03\text{mm}$ placement precision for reliable board assembly
- User-Friendly Interface:** Intuitive control system reduces programming and setup time
- Flexible Feeder System:** Supports various feeder types with automatic changeover capabilities
- Space-Efficient Design:** Compact footprint ideal for production lines with limited floor space
- Energy Efficient Operation:** Designed to minimize operational costs through efficient power usage

Technical Specifications

Insert Spacing	10.0 mm
Machine Weight	2250 kg
Placement Rate	Up to 60,000 CPH
Placement Accuracy	$\pm 0.03\text{ mm}$
Minimum Component Size	0201
