Basic Information

- Place of Origin: Korea
- Brand Name: ESE
- Model Number: US-2000X
- Minimum Order Quantity: 1 PCS
- Price: USD+negotiable+pcs
- Packaging Details: 1600*1800*1500mm
- Delivery Time: 1-7 days
- Payment Terms: T/T
- Supply Ability: 1+pcs+per days

Product Specification

- PCB Size: 550mm X 400mm
- PCB Thickness: 0.1mm – 5mm
- Stencil Size: 550mm, 580mm, 650mm, 736mm
- Printing Speed: 5~250mm/sec
- Printing Force: 3-25kgf
- Cycle Time: 10sec
- Alignment Accuracy: ± 12.5 μ m @ 6 Sigma
- Printing Repeatability: ± 25 μ m @ 6 Sigma , Cpk ≥ 2.0
- Power Supply: S Phase AC220-240V, 50/60Hz 10amp
- Air Supply: -6kg/cm²(56-85psi) Pressure
- Machine Dimensionmm: 1565Lx1760Wx1448H
- Weight: 850Kg
- Highlight: **US-2000X Precision Screen Printing Machine, Industrial Precision Screen Printing Machine, ESE US-2000X Screen Printing Machine**

Product Description

ESE US-2000X Precision Screen Printing Machine

The ESE US-2000X is a high-precision screen printing machine engineered for demanding industrial applications. This robust system delivers exceptional performance, accuracy, and versatility for producing superior quality prints and images across diverse substrates.

Maximum Print Area

28 x 28 inches

Key Features

- Industrial-grade construction with heavy-duty steel frame
- Aluminum frame castings for enhanced strength and vibration reduction
- Optimized for medium to large format printing applications
- Superior accuracy and repeatability for consistent print quality
- Versatile substrate compatibility for diverse printing needs

Industrial Applications

Designed to meet the rigorous demands of industrial screen printing environments, the US-2000X ensures reliable operation and exceptional print quality for commercial manufacturing, signage production, and specialized printing applications.
