

PET Material SMT Splicing Tape Guide with Three Tapes for 12mm to 44mm Carrier Tapes

Our Product Introduction

for more products please visit us on smtmachinepart.com

Basic Information

- Place of Origin: China
- Brand Name: GS
- Model Number: GSM0908/GSM0912/GSM0916/GSM0924
- Minimum Order Quantity: 1 PCS
- Price: USD+negotiable+pcs
- Packaging Details: 8*45*10mm
- Delivery Time: 1-7 days
- Payment Terms: T/T
- Supply Ability: 1+pcs+per days

Product Specification

- Brand Name: GS
- Material: PET
- Model Number: GSM0908/GSM0912/GSM0916/GSM0924
- Product Name: SMT Splicing Tape Guide
- Application: SMT Process
- Customization: Support
- Highlight: **PET SMT Splicing Tape Guide, SMT Splicing Tape 12mm, 44mm SMT Splicing Tape**

Product Description

GSM09 Series Special SMT Splicing Tape Guide With Three Tapes

The GSM09 series Special SMT splicing tape with guide alignment is designed for all specifications of carrier tape (8mm, 12mm, 16mm, 24mm, 32mm, 44mm, 56mm, 72mm, 88mm). This precision splicing solution features three tapes, release paper, and removable PET with superior adhesion properties.

Key Benefits

Increased Machine Output

The GSM09 series significantly increases pick and place machine output by minimizing frequent reel changes. This maintains steady production flow and allows machines to operate at peak efficiency with seamless carrier tape joining.

Reduced Downtime

Drastically reduce production line downtime with reliable carrier tape joining. The GSM09 series enables longer continuous operation and higher throughput by eliminating interruptions associated with reel changes.

Decreased Machine Abrasion

Extend machine lifespan and reduce maintenance costs by minimizing feeder reloading frequency. The GSM09 series splice tape protects machine components from excessive wear and tear.

Available Specifications

Tape Width	Application
8mm, 12mm, 16mm	Small component carrier tapes
24mm, 32mm, 44mm	Medium component carrier tapes
56mm, 72mm, 88mm	Large component carrier tapes

SMT double splice tape, SMT double splice tape for pick-and-place, SMT double splice tape yellow, Double splice tape for SMT machines, SMT double splice tape adhesive, SMT double splice tape black, SMT double splice tape usage guide, SMT double splice tape for feeders, High-quality SMT double splice tape, SMT splice tape double-sided, Double splice tape for Panasonic SMT, Double splice tape for Fuji SMT, SMT double splice tape compatibility, Double splice tape for high-speed SMT machines, SMT double splice tape performance, SMT double splice tape durability
