## Product Description

### GSM27 Series SMT Silver Red Splicing Tape With Intelligent Feeder

The GSM27 Series Special Red Splicing Tape is designed for Fuji machines with intelligent feeder systems. This professional ESD silver splice tape features precision placement holes for use with alignment jigs, ensuring accurate and reliable performance in SMT assembly processes.

#### Key Product Features

**High-Quality Construction:** Engineered from professional ESD silver material for safe handling of sensitive electronic components with precision placement holes for alignment jigs.

**Fuji Machine Compatibility:** Specifically designed for Fuji machines, featuring intelligent feeder systems for smooth component feeding and minimized misalignment.

**Versatile Application Range:** Compatible with SMT carrier tapes from 8mm to 88mm, suitable for Universal, Juki, Sanyo, Hitachi, and other SMT equipment.

**Custom Sizes Available:** Available in sizes ranging from 32mm to 88mm upon request to meet specific assembly line requirements.

**Note:** This splicing tape is optimized for high-performance SMT assembly lines and ensures reliable connectivity between tape segments during automated component placement.
