

SMT Splice Cutter Tool with Positioning Function for 8mm Carrier Tape and 2mm 4mm Pitch Handling

Our Product Introduction

for more products please visit us on smtmachinepart.com

Basic Information

- Place of Origin: China
- Brand Name: GS
- Model Number: GSMTL30
- Minimum Order Quantity: 1 PCS
- Price: USD+negotiable+pcs
- Packaging Details: 330*80*40mm
- Delivery Time: 1-7 days
- Payment Terms: T/T
- Supply Ability: 1+pcs+per days

Product Specification

- Brand Name: GS
- Model Number: GSMTL60
- Product Name: SMT Yellow Splice Cutter Tool
- Material: Steel+Plastic
- Application: SMT Process
- Customization: Support
- Highlight: **Yellow Splice Cutter Tool, SMT Splice Cutter Tool**

Product Description

SMT Yellow Splice Cutter Tool With Positioning Function GSMTL30

The GSMTL30 is a lightweight scissors used to accurately cut 8mm carrier tapes. This unique design features two rows of placement pins to easily cut 2mm and 4mm pitches.

Key Features

- Ensures perfectly straight cuts for 8mm component reels
- Dual-row placement pins for 2mm and 4mm pitch tapes
- Lightweight construction with comfortable grip
- Integrated safety clamp for secure storage
- Reduces hand fatigue during extended use

Applications

- Accurate straight cutting of 8mm component reels
- Specialized pin guides for 2mm and 4mm pitch alignment
- Efficient splicing operations in SMT applications

Product Advantages

- Enhanced Alignment:** Dual-row placement pin guides improve tape alignment for reliable splicing
- Safety First:** Integrated safety clamp prevents accidental injuries and extends tool lifespan
- Ergonomic Design:** Lightweight construction with comfortable grip ideal for prolonged use

Instructions for Use

- Open the safety clamp to release and spring open the scissors
- Place the component carrier tape onto the 2mm or 4mm pitch placement pin guides
- Squeeze the handle firmly to make an accurate cut in the carrier tape
