

60g SMT steel mesh wiping paper with high efficiency water absorption and anti-static properties for solder paste cleaning

Our Product Introduction

for more products please visit us on smtmachinepart.com

Basic Information

- Place of Origin: China
- Brand Name: GS
- Model Number: DEK-SMT350mm×10m×530mm
- Minimum Order Quantity: 1 roll
- Price: USD+negotiable+roll
- Packaging Details: 540*45mm
- Delivery Time: 1-7 days
- Payment Terms: T/T
- Supply Ability: 1+roll+per days

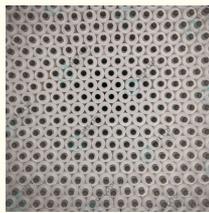

Product Specification

- Name: SMT Solder Paste Printing Machine Steel Mesh Wiping Paper
- Gram Weight: 60g
- Roll Size: 530mm×20m
- Paper Tube Size: Length =530mm Inner Diameter =38mm
- Packing: 530mm×20m×530m/ Roll, 50 Rolls/box
- Condition: Original New
- Highlight: adhesive smt splice tape, adhesive smt double splice tape

Product Description

DEK Roll Cleaning Dust Removal Solder Paste Red Adhesive Paper GKG Reel Automatic Printing Machine SMT Steel Mesh Wiping Paper

Product Characteristics

- Material composition: wood pulp and polyester fiber
- High efficiency water absorption, soft, no dust, anti-static
- Effectively cleans printing press steel mesh and circuit boards of excess solder paste and red glue, reducing scrap rate

Product Description

Professional cleaning paper designed for SMT stencil and printing machine maintenance. These high-performance wipes effectively remove excess solder paste and red adhesive from steel mesh stencils and circuit boards, ensuring optimal printing quality and reducing production scrap rates.

Applications

Ideal for DEK, GKG, and other automatic printing machines in SMT assembly lines. Perfect for maintaining steel mesh stencils and ensuring clean, precise solder paste application in electronic manufacturing processes.
