

ASM / Siemens X Series SMT Feeder Calibration Jig Adjustable

Our Product Introduction

Basic Information

- Place of Origin: Germany
- Brand Name: ASM/SIEMENS
- Model Number: X series Feeder Calibration Jig
- Minimum Order Quantity: 1 set
- Price: USD+negotiable+set
- Packaging Details: 120*80*90cm
- Delivery Time: 1-7 days
- Payment Terms: T/T
- Supply Ability: 1+set+per days

Product Specification

- Brand Name: ASM/SIEMENS
- Condition: Original New/Used Original
- Lead Time: 1-7 Days
- MOQ: 1 Set
- Highlight: Siemens X Series Feeder Calibration Jig, Adjustable Feeder Calibration Jig, ASM SMT Feeder Calibration Jig

Product Description

Siemens X Series Feeder Calibration Jig

1. Calibration of Feeders: They are used to calibrate the position and function of feeders on SMT machines, ensuring that components are picked up and placed accurately.
2. Verification of Eject Pin Position: They help verify the position and function of the eject pin, which is crucial for proper component handling.
3. Simulation of Machine Operation: Many calibration jigs can simulate the operation of the SMT machine, allowing for adjustments under conditions similar to actual production.
4. High Magnification Inspection: Often equipped with high magnification cameras (e.g., CCD), these jigs enable detailed inspection of feeder components and adjustments.
5. Adjustment and Verification Tools: They typically include tools like master gauges or calibration rulers to ensure precise adjustments and verification of feeder settings.
