

Nitrogen Wave Soldering Machine with Windows10 OS Modular Design and Four-Stage Preheating for Lead-Free PCB Assembly

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: GS
- Model Number: SA-450
- Minimum Order Quantity: 1 PCS
- Price: USD+negotiable+pcs
- Packaging Details: 4400*1680*1750mm
- Delivery Time: 1-7 days
- Payment Terms: T/T
- Supply Ability: 1+pcs+per days

Product Specification

- Model: SA-450
- Basic Size/PCB: Max450mm
- Transfer Speed: 400 -1800mm/min
- Preheater Power: 21.6KW
- Tin Furnace Power: 18KW
- Transmission Motor: 1ΦPAC220V 90W
- Cooling Fan: 1ΦAC220V 370W
- Tin Wave Motor: 2-3ΦPAC220V 370W
- Cleaning Motor: 1ΦPAC220V 30W
- Tin Furnace Capacity: 520kg
- Highlight: **Nitrogen Wave Soldering Machine ,
Wave Soldering Machine Lead Free**

Product Description

Nitrogen / Air Wave Soldering Machine Lead Free for Electronics

Advanced Features

Windows 10 operating system with bilingual English/Chinese interface switching capability

Modular design for convenient, fast maintenance that reduces downtime and operational costs

Four-stage independent drawer-type super long hot air preheating zone minimizes product temperature differentials and enhances quality

Standard electric lifting and running mechanism for tin furnace with dual-side operation capability

Tin furnace equipped with secondary heating monitoring foolproof system to prevent abnormal heating conditions

Pressure tank constant pressure storage system ensures stable flux spraying pressure

Comprehensive sound and light alarm system for temperature deviation, speed deviation, wave and wind faults, and incorrect operations

Related Products & Technologies:
