

12-Layer PCB Test Board with 1.6mm Thick Gold Plating for SMT PCB Manufacturing

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: GS
- Model Number: GS12CCSB
- Minimum Order Quantity: 1 PCS
- Price: USD+negotiable+pcs
- Packaging Details: 20*20*10cm
- Delivery Time: 5-15 days
- Payment Terms: T/T
- Supply Ability: 1+pcs+per days

Product Specification

- Highlight: **Manufacturing PCB Test Boards,
12 Layer PCB Test Boards**

12-Layer PCB Test Boards: The Ultimate Solution for Manufacturing

Premium 12-Layer PCB Test Board Manufacturing

Our advanced 12-layer PCB test boards provide comprehensive testing solutions for complex multilayer circuit board manufacturing processes.

Technical Specifications

- Board Thickness:** 1.6mm
- Surface Finish:** Gold settling
- Impedance Control:** Standard impedance testing
- Base Material:** Shengyi TG170 high-performance laminate
- Internal Layer Spacing:** 6.5mil hole to line spacing
- Fine Line Capability:** Local 3mil wiring precision
